

### THE SOLUTIONS YOU NEED THE STANDARDS YOU EXPECT

**DEDICATED PEOPLE** 4,300+ employees, hereof approx. 250 in AVK International A/S

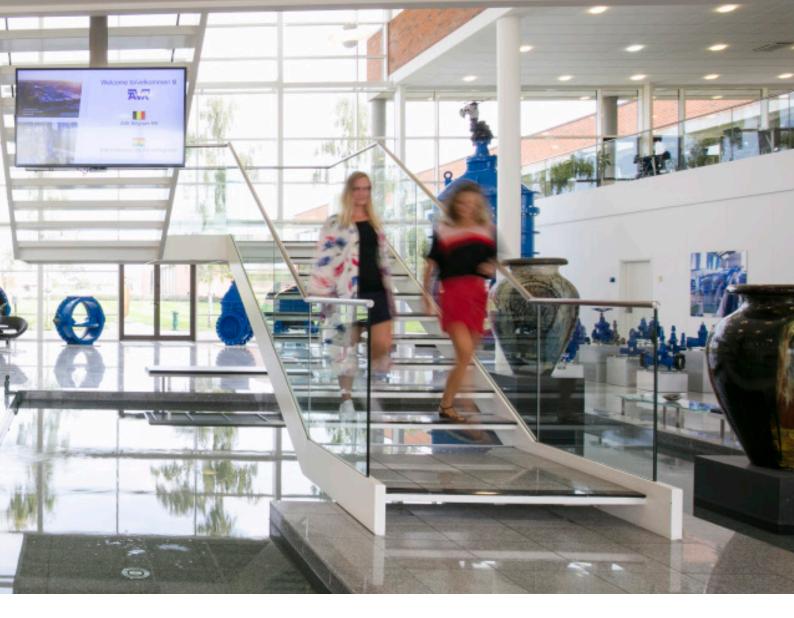

**GLOBAL ORGANISATION** 100+ AVK companies worldwide

**CONTINUOUS GROWTH** Net turnover EUR 777 million (2018/19)

## AVK YOUR LONG-TERM PARTNER

AVK has been in the valve business for almost 50 years. Today AVK is a global leader within valves, hydrants and accessories for water supply, gas supply, wastewater treatment and fire protection.

#### The wide AVK range

AVK International A/S specialise in manufacturing gate valves, double eccentric butterfly valves, ball check valves, service connection valves, Supa Maxi™ couplings, extension spindles and selected types of hydrants and accessories.

We add numerous products to our range from the more than 20 other AVK factories in Europe as well as from AVK factories worldwide. These AVK factories specialise in other types of valves, hydrants and accessories, and jointly we are capable of offering a very wide selection of high quality products.

#### **Global leadership and local commitment**

Our geographical presence and product range is global, but our focus is local. Our customers are serviced by local sales organisations, in AVK's own sales companies or within our carefully selected distributors, who engage in their customers' needs. We are therefore able to offer tailormade solutions that match local specifications.

#### A beneficial partnership

We want to build and invest in a longterm partnership with our customers. To earn our role as a long-term partner, we strive to deliver value for money. We deliver error-free, durable and maintenance-free products that constitute the most cost-efficient solution for our partners in the long run.

# **EXPECT QUALITY IN EVERY STEP**

#### State-of-the-art rubber technology

It is crucial that the rubber components inside valves, hydrants and accessories are of the highest quality to ensure a safe, watertight seal and trouble-free operation, even after many years without use. In our rubber factory, AVK GUMMI A/S, we develop and produce our own rubber components to make sure that they meet our uncompromising standards of excellence.

Our gate valve wedge design and other marketleading innovations provide the reliability you need to safeguard your network, your supply and the health and safety of your customers. This is especially important within water supply to avoid contamination and within gas supply to avoid even the tiniest leakage. AVK is the safe choice since we give high priority to quality and compliance. For over 40 years, AVK GUMMI has made rubber components for the water, natural gas, healthcare and food industries. Our complete production control and one of the world's most advanced mixing plants enable us to offer unique rubber compounds of exceptional quality and uniformity, which are approved worldwide for drinking water, gas and many other applications.

### Streamlined processes facilitate short lead times

In our factories, all our products undergo careful surface treatment and rigorous testing to ensure maximum durability and to make certain they can withstand even the harshest environments. By using technologies that excel in precision, we make sure that our products are designed to deliver the highest level of performance and quality. We are in full control of the supply chain from raw materials to finished product with meticulous attention to quality control, traceability and pressure testing of every single valve.

Based on LEAN principles, we have streamlined our work processes and flow of goods to ensure the fastest possible lead time. We store a large selection of AVK's product range in our 13,000 m<sup>2</sup> warehouse fitted with up-to-date equipment, and our warehouse management system enables us to optimise our inventory and handling. Altogether, this allows us to offer great delivery service.

# EXPECT US TO TAKE RESPONSIBILITY

#### Water is a scarce resource

Access to clean water is often taken for granted, just like the fresh air we breathe. But we are facing an invisible, yet crucial problem of water loss, also referred to as non-revenue water. Non-revenue water is water that has been produced and cleaned but which is lost somewhere in the water distribution system without being used or paid for, and the levels of non-revenue water range from about 5% to as much as 80% in certain areas.

AVK offers a wide range of reliable and longlasting valves, including control valves, that can help reduce water losses and contribute to efficient water supply management by maintaining a certain pressure, flow or level, regardless of changes in the supply network.

Pressure management is considered the single most beneficial and cost-effective leakage management activity, but it is also of considerable importance to use valves of a sufficient quality to ensure tightness many years after the valves have been installed, whenever they have been used frequently or not at all.

#### Sustainable production

The AVK Group has outlined strict objectives for activities and processes in its manufacturing companies regarding recycling as well as energy and water consumption. In addition, our suppliers must comply with our ethical standards to be a certified supplier of the AVK Group, since it is vital for AVK to ensure sustainability throughout the supply chain. Therefore, we choose partners who are strongly committed to complying with international legislation in the field of labour.

#### Supporting world-transforming goals

Our solutions contribute to the UN sustainable development goals by ensuring clean water and sanitation, by reducing water waste, electricity consumption and CO<sub>2</sub> emissions, and by turning wastewater into affordable and clean energy.

Our valve design is not only optimised to ensure long durability and 100% tightness, but also offers low operating torque, which allows for the use of cost-efficient electrical actuators. In addition, we offer knife gate valves with dedicated linear electrical actuators featuring very low energy consumption.

AVK has entered into partnerships with other leading Danish companies with the purpose of sharing knowledge within water technology and offering joint solutions for a more sustainable world.

#### Global goals for sustainable development

# EXPECT LASTING INNOVATIONS

#### Inhouse R&D

In our Development Department in Denmark, ideas and suggestions for new products are gathered, and existing products are updated continuously.

We use FEA (Finite Element Analysis) to optimise the strength and geometry of our components and CFD (Computational Fluid Dynamics) analyses to validate different product designs prior to creating physical prototypes, enabling us to predict consequences in cases where it is impossible to create full scale tests on physical products.

Sec.

We make our own test and production equipment, and in our flow lab, we conduct thorough prototype and life cycle tests prior to release for production. New product types are generally field tested in co-operation with end users before final launch.

#### **Quality certifications**

AVK's quality management system is certified according to ISO 9001, and in 2018, we also obtained the ISO/TS 29001 certification.

ISO/TS 29001 is an industry-specific standard for the oil and gas industry based on ISO 9001, but with stricter requirements for control measures and risk management, in that key issues such as staff training, traceability of materials and obtained test results must be documented.

Moreover, we are certified to ISO 14001, the international standard for environmental management, and ISO 45001, the international occupational health and safety standard.

# **EXPECT US TO EXCEED** MARKET STANDARDS

#### Third party certification

Authorities such as DVGW (Germany), KIWA (Netherlands) and UL & FM (the US) offer certification of finished valves, and these are also recognized and accepted by other countries that do not have their own certification schemes.

By obtaining and maintaining the most widely accepted certification, we show our customers that AVK valves always meet the highest quality and safety standards.

#### Expect... AVK

In our business there are five cornerstones that must be in place in order to meet customer expectations: Quality, reliability, innovation, sustainability and customer service.

But we need to go further than that. We go further to exceed our customers' needs and expectations.

"Expect... AVK" means that our customers should rightfully expect us to exceed market standards. "Expect... AVK" means that we relentlessly strive for increased customer benefits!

To ensure that we keep pushing the boundaries of what the market can expect, we have formulated promises that we will strive to deliver in all our markets:

EXPECT A LONG-TERM PARTNERSHIP EXPECT QUALITY IN EVERY STEP EXPECT LASTING INNOVATIONS EXPECT TOTAL SAVINGS EXPECT SOLUTIONS, NOT JUST PRODUCTS EXPECT GLOBAL LEADERSHIP AND LOCAL COMMITMENT EXPECT PROMPT RESPONSE EXPECT IT TO BE EFFECTIVE AND EASY

#### See more on www.avkvalves.eu

#### Water supply

Gate valves and accessories, butterfly valves, check valves, control valves, needle valves, air valves, hydrants, couplings, fittings etc.

Wastewater treatment

Gate valves, knife gate valves, ball and swing check valves, butterfly valves, air valves, penstocks and couplings.

## CORE BUSINESSES

#### Part of vital infrastructures

AVK has delivered gate valves to the water supply sector since the company was established in 1969, and today AVK is a global leader offering an extensive range of valves, hydrants and accessories. In the 70s we obtained our first DVGW approval for gas valves, and due to our high uniform quality and focus on safety and traceability, AVK is still a trusted supplier to the gas supply sector worldwide. For wastewater treatment we offer a very wide valve range according to all major standards as well as customized solutions. The AVK Group is among the largest manufacturers of fire hydrants worldwide and our range includes UL/FM/VdS approved hydrants, gate and butterfly valves for fire protection.

#### AVK's products are securing:

- Clean drinking water without contamination or waste of water in the distribution network
- Efficient handling and cleaning of wastewater from households and industries
- Safe distribution of natural gas enabling a wide use of this eco-friendly energy source for heating, cooking and production
- Reliable fire equipment and water supply enabling firefighters to react fast and efficiently in dangerous situations

#### **Gas supply**

Gate valves and accessories, ball valves, butterfly valves, couplings and repair clamps.

**Fire protection** 

Fire hydrants, monitors, gate valves, post indicators, butterfly valves, check valves and accessories.

# **PRODUCT FEATURES AND BENEFITS**

#### **Product range brochures**

Brochures for each of our core businesses are available for download from our website. Here we explain the features and benefits of each main product group and give a detailed overview of AVK's range within water supply, wastewater treatment, gas supply and fire protection.

## **GATE VALVES FOR WATER**

Series 02/60 Flanged gate valve Face-to-face DIN F5 DN40-500 PN10/16 Ductile iron

- Options: replaceable stem
- sealing
- internal enamel
- PN25 • to GOST or SABS

Series 15/42 Flanged gate valve prepared for electric actuator Face-to-face DIN F4 DN40-400 PN10/16 Ductile iron

Options: • face-to-face DIN F5

• hydraulic/pneumatic actuator

Series 01/70 Supa Plus<sup>™</sup> gate valve with tensile coupling ends for PE and uPVC pipes DN40-300 PN16 Ductile iron

#### Series 06/30 Flanged gate valve Face-to-face DIN F4

- DN40-400 PN10/16 Ductile iron
- Options: • replaceable stem
- sealing
- internal enamel

Series 06/38

Gate valve with grooved ends

DN50-300

Ductile iron

**PN16** 

• with position indicator • face-to-face BS

#### Series 06/30

Flanged gate valve Face-to-face DIN F4 DN450-1000 PN10/16 Ductile iron Resilient seated Replaceable stem sealing

- Options:
- DN50 By-pass
- face-to-face DIN F5

#### Series 636

Supa Maxi<sup>™</sup> gate valve with universal and tensile coupling ends for all pipes DN80-300 PN16 Ductile iron

#### Series 32/40

Gate valve with long spigot ends for cast iron pipes DN80-300 **PN16** Ductile iron

#### Options:

- short spigot ends for
- D.I. pipes or AC pipes • flange/spigot end

Series 18 Combi-cross with 4 outlets DN100-400 PN10/16 Ductile iron

Options: 3 outlets

Series 33/00 Gate valve with socket ends for cast iron pipes DN80-300 PN16 Ductile iron With internal enamel

Options: • BLS® socket end/ BLS® spigot end

Gate valve with PE ends DN65-500

0d75-630 mm Ductile iron PE100/PN10

Options: • PE100/PN16 • PE end/flange

Series 01/80 Gate valve for uPVC pipes DN40-400

with "Euro" socket ends **PN16** Ductile iron

## CHECK VALVES AND BUTTERFLY VALVES FOR WATER

Series 41/60 Swing check valve Resilient seated Free shaft DN50-300 PN10/16 Ductile iron

Options: • lever and weight • lever and spring • closed bushings

Series 41/36 Swing check valve Metal seated Closed bushings DN350-600 PN10/16 Ductile iron

Options: • free shaft

#### Series 874

With lever and weight DN150-1600 PN10/16 Ductile iron

Options: • hydraulic damper

Series 875 Slanted seat check valve DN200-1000 PN10/16 Ductile iron

Series 820/00 Butterfly valve Centric with loose liner Wafer type DN25-1000 PN10/16 Ductile iron

Options: • various actuators

Series 820/10 Butterfly valve Centric with loose liner Lug type DN25-600 PN10/16 Ductile iron

Options: • various actuators

Series 820/20 Butterfly valve Centric with loose liner U-section type DN150-1600 PN10/16 Ductile iron

Options: • various actuators

Series 75/10 Butterfly valve Centric with fixed liner Wafer type

Ductile iron Options:

DN40-1400

PN10/16

semi lug type

- full lug
- various actuators

To

Series 756/100 Butterfly valve Double eccentric Double flanged Integral seat IP 67 gearbox DN200-2800 PN10/16 Ductile iron

Options:

stainless steel seatIP 68 gearbox

- ISO-input gearbox
- PN25 in DN200-1200

Series 756/102 Butterfly valve Double eccentric Double flanged Stainless steel seat ISO-input gearbox DN200-2800 PN10/16 Ductile iron

Options: • integral seat

- IP 67 gearbox
- IP 68 gearbox
- PN25 in DN200-1200

Series 75/20 Butterfly valve Centric with fixed liner Double flanged short DN50-2000 PN10/16

Ductile iron Options:

- double flanged longvarious actuators

## SERVICE CONNECTION VALVES FOR WATER

Series 03/00 Service connection valve with internal BSP thread DN25-50 PN16 Ductile iron

Options: internal enamel

Series 03/90

PE pipes

DN20-50

Ductile iron

• internal enamel

PN16

Options:

Service connection valve

with PRK couplings for

Series 03/30 Service connection valve with tensile socket ends for PE pipes DN20-50 PN16 Ductile iron

Options: • for side tapping with internal thread/external thread

Series 16/05

DN25-50

PN16

Brass

Options:

T-type bonnet

with tensile screw

Service connection valve

couplings for PE pipes

#### Series 03/65

Service connection valve with tensile screw couplings for PE pipes DN25-50 PN16 Ductile iron

Options: • tensile screw coupling for PE pipes/external thread

#### Series 16/25

Service connection valve with PRK couplings for PE pipes DN25-50 PN16 Brass

Options: • T-type bonnet

Series 36/8X Service connection valve with PE ends DN25-50

PE100/PN10 Ductile iron

Options: • PE100/PN16

Series 16/80

with PE ends

Service connection valve with tensile socket ends **PN16** POM (Polyoxymethylene)

Options: • external thread/tensile

socket end T-type bonnet

#### Series 16/59 Service connection valve with Pentomech™ couplings DN25-50 **PN16** POM (Polyoxymethylene)

Service connection valve

Series 16/90 Service connection valve with PRK couplings DN25-50 **PN16** POM (Polyoxymethylene)

Options: PRK coupling/external thread

T-type bonnet

Series 11/30 Service connection angle valve with external thread on inlet and tensile socket end for PE pipes on outlet DN25-50 **PN16** Ductile iron

Options: • internal thread on outlet

DN25-50 PE100/PN16 POM (Polyoxymethylene)

Options: T-type bonnet

#### Series 16/50 for PE pipes DN25-50

## SUPA LOCK<sup>TM</sup> THREADLESS CONNECTION SYSTEM FOR WATER

Series 103/00 Service connection valve with Supa Lock™ spigot/ Supa Lock<sup>™</sup> socket end **DN32** PN16 Ductile iron

Options: Supa Lock<sup>™</sup> spigot end/PRK coupling

Series 103/31 Angle service connection

valve with Supa Lock™ spigot end/push-in socket end DN32 For PE pipes Ø32-40 mm PN16 Ductile iron

Options: Supa Lock<sup>™</sup> spigot end/Supa Lock™ socket end

#### Series 100/85

DN32 Ductile iron/stainless steel

Series 343/81

Ball valve with Supa Lock<sup>™</sup> spigot end/BSP thread 1"-1½" DN32 **PN16** Brass

Options:

- Supa Lock<sup>™</sup> spigot end/PRK coupling
- Supa Lock<sup>™</sup> spigot end/screw coupling
- with T-type bonnet

Tapping head with blade shut-off DN32 Ductile iron

Series 100/14 Tapping saddle for iron/steel pipes Ø60-223 mm DN32 Ductile iron

Options: • for PE/PVC pipes Ø63-225 mm

Tapping saddle with blade shut-off for iron/steel pipes Ø50-360 mm

Series 107/36 Fitting with PE pipe end Ø32-40 mm DN32 Ductile iron

Series 106/01 Fitting with PRK coupling for PE pipes Ø32-40 mm DN32 Ductile iron

Series 107/31 90° push-in fitting for PE pipes Ø32-63 mm DN32 Ductile iron

Options: straight push-in fitting for PE pipes

Series 106/01 Fitting with screw coupling for PE pipes Ø32-50 mm DN32 Brass

Options: PRK coupling

Series 106/02 Threaded connector For connection to drilling machines 1"-2" DN32 Brass

Options: • ductile iron threaded transition connector

Series 109/10 Spacer for flanged connections DN80-400 DN32 Ductile iron

## CONTROL VALVES, NEEDLE VALVES, AIR VALVES AND FLOAT VALVES FOR WATER

Series 859/000X Control valve Pressure reducing DN50-600 PN10/16 Ductile iron/AISI 316

Series 859/001X Control valve Pressure sustaining DN50-600 PN10/16 Ductile iron/AISI 316

Series 872

Needle valve DN 80-1600 PN 10/16/25/40 Stainless steel DN80-150 Ductile iron from DN200

- Options:
- various actuators and accessories
- up to PN100 and DN2000

Series 701/10 Automatic air valve Threaded BSP ¾" or 1" DN20-25 PN16 Reinforced polyamide

Options: • brass base • ductile iron

Series 701/30 Air & vacuum valve Inlet flange DN50-300 PN16 Ductile iron

Series 701/40 Combination air valve DN20, 25 and 50 Threaded BSP ¾", 1" or 2"

PN16 Reinforced polyamide

Series 701/48 Combination air valve Threaded BSP 2" / DN50-150 inlet flange PN16 Reinforced polyamide

Options: • ductile iron

stainless steelhigh flow

Series 701/50 Combination air valve Inlet flange DN50-300 PN16 Grey cast iron/Reinforced polyamide

Series 701/60 Combination air valve Inlet flange DN50-300 PN16 Ductile iron

Series 701/84 Underground air valve installation system DN50-100 PN16 Air valve box of PVC

Series 851/40 Combination air valve DN50-200 ABS float

Options: • stainless steel float

Series 854 Ball float valve Lever and float of PP

Options: • lever and float of stainless steel

## HYDRANTS FOR WATER

## **HYDRANTS AND VALVES FOR FIRE** PROTECTION

Series 27/00 Dry barrel fire hydrant Modern style Bury depth 305-2438 mm 17.2 bar/250 PSI Ductile iron UL/ULC listed, FM approved

Inlet options: • DN100-150 flanged • DN100-150 PE end monitor fire hydrant

Series 06/37 Grooved end gate valve with position indicator DN50-300 PN16 Ductile iron VdS approved (DN50-200 only)

Series 24/90 Wet barrel fire hydrant 200 PSI

2 x 2½" + 1 x 4/4½" outlets Ductile iron UL listed, FM approved

Options: • 1 x 2½" + 1 x 4/4½" outlets

 DN100 monitor flange and 2 x 21/2" + 1 x 4"/41/2" outlets

#### Series 45/59

Flanged gate valve with post indicator flange DN50-300: 17.2 bar/250 PSI DN350-400: 13.7 bar/200 PSI Ductile iron UL/ULC listed, FM approved

Options: · PE ends

Series 75/20

Butterfly valve Centric with fixed liner Double flanged short Ductile iron FM approved

Wall post indicator for DN100-400 P.I. gate valves Stem length: 250-1250 mm Ductile iron UL/ULC listed, FM approved

#### Series 06/35

Flanged gate valve with position indicator DN50-400 PN10/16 Ductile iron VdS approved (DN50-200 only)

#### Series 145/46 - 45/56

Flanged gate valve with rising stem DN50-300: 17.2 bar/250 PSI DN350-400: 13.7 bar/200 PSI Ductile iron UL/ULC listed, FM approved

Options:

- grooved ends
- grooved/flanged ends

#### Series 815

Butterfly valve Centric with rubber vulcanized disc Grooved ends to AWWA C606 DN65-200 24.1 bar/300 PSI Ductile iron UL/ULC listed. FM approved

Series 5190/10

Swing check valve Spring loaded Grooved ends to AWWA C606 DN50-200 24.1 bar/350 PSI FM approved

Options: shotgun type

• with flanges

#### Series 145/50 - 45/59 Flanged gate valve

with wrench nut DN50-300: 17.2 bar/250 PSI DN350-400: 13.7 bar/200 PSI Ductile iron UL/ULC listed, FM approved

Series 34/00

valves

Ductile iron

UL/ULC listed,

FM approved

Post indicator, telescopic

for DN100-400 P.I. gate

Bury depth: 505-2210 mm

#### DN50-300 PN10/16

 wafer • semilug • lug

Series 34/80

## SUPA MAXI<sup>TM</sup>, SUPA PLUS<sup>TM</sup> AND SUPA® COUPLINGS AND ADAPTORS

Series 631/00 Supa Maxi™ universal tensile straight coupling DN50-600 PN16 Ductile iron

Options: • for gas PN10

Series 632/00 Supa Maxi™ universal

tensile step coupling DN40-300 PN10/16 Ductile iron

Options: • for gas PN10

Supa Maxi<sup>™</sup> universal tensile flange adaptor DN40-600 PN10/16 Ductile iron

Options: • for gas PN10

Series 634/00 Supa Maxi™ universal tensile end cap DN50-400 PN16 Ductile iron

Options: • for gas PN10

Series 635/00 Supa Maxi™ universal tensile transition coupling with factory mounted PE pipe DN50-300 PN10 or 16 Ductile iron

Series 621/10 Supa Plus<sup>™</sup> coupling Tensile for PE and uPVC pipes

DN32-300

Ductile iron

PN16

Ø

Series 623/10 Supa Plus™ flange adaptor Tensile for PE and uPVC pipes DN40-300 PN10/16 Ductile iron

Series 624/10 Supa Plus™ end cap Tensile for PE and uPVC pipes DN40-300 PN16 Ductile iron

Series 601 Supa® universal straight coupling DN40-400 PN16 Ductile iron

Series 602 Supa® universal step coupling DN40-400 PN10/16 Ductile iron

Series 603 Supa® universal flange adaptor DN40-400 PN10/16 Ductile iron

## COMBI-FLANGES, DISMANTLING JOINTS, **COUPLINGS AND TAPPING SADDLES**

Series 05 Combi-flange for PE and

**PVC** pipes Non-tensile (PVC) DN50-600 Tensile DN50-300 PN10/16 Ductile iron

Options: • for ductile iron pipes • for steel pipes (non-tensile)

Series 745/01 Repico® grip coupling Universal and tensile for all metal pipes NBR or EPDM sealing DN15-400 Stainless steel AISI 316

Options: • for medium pressure up to DN200

Series 745/20 Repico® slip coupling Universal and non-tensile for all pipes NBR or EPDM sealing DN15-600 Stainless steel AISI 316

Series 05/08

Support bush

for PE pipes

Stainless steel

PN6.3, 10, 12.5 or 16

DN50-600

Options: 2 locks up to DN1000

Tapping saddle for uPVC and PE pipes Lower part in stainless

Options: • for cast iron, ductile iron and steel pipes

Series 258

Fabricated straight coupling for AC, steel, cast iron or ductile iron pipes DN350-2000 PN8 to 25 Steel

Options:

• step coupling • flange adaptor

Series 265

Dismantling joint for all types of pipes with flanged connections DN350-1200 PN10/16/25 Steel

Options: with centre flange DN50-2200

Series 873 Dismantling joint for all pipe materials With centre flange DN40-2600 PN10/16/25 Ductile iron

Series 10/00 DN50-300 Ductile iron steel from DN250

Series 730 Universal tapping saddle with blade shut-off for ductile iron, steel and other metal pipes DN50-300 Ductile iron/steel

Options: • without blade shut-off

Series 727/10 Tapping saddle with blade shut-off For PE and PVC pipes DN80-200 Ductile iron

Series 727/09 Tapping saddle SWIC for underpressure drilling With integrated cutter for PE and PVC pipes DN50-200 Ductile iron

Options: • with integrated cutter for steel pipes

#### Series 6731

Flanged universal tapping saddle with blade shutoff for iron, steel, PE and **PVC** pipes Ductile iron

Options: slim type

## VALVE ACCESSORIES

Series 04 Fixed surface box Grey cast iron Distance ring/square for fixed surface box

Options: • reversible design

Series 80 Surface box "Classic" Fixed height Body of PA+

Options:

- square or roundlid of cast iron or PA
- for gate valves, service connection valves or underground hydrants

i.

#### Series 80

Surface box "Classic" Height adjustable Body of PA+

Options:

square or round

Series 04/008

spindle

Options:

Ductile iron

Floating surface box for telescopic extension

• round or square

• round or square lid

double surface box

surface plate

 lid of cast iron or PA
for gate valves, service connection valves or underground hydrants

Series 80 Surface box "Futura" Fixed height Body of PA+

Options:

square or roundlid of cast iron or PA

 for gate valves, service connection valves or underground hydrants

Series 04/007 Floating surface box for telescopic extension spindle Body of PE Flange and lid of ductile iron

#### Options: • round - black

- round blue epoxy
- square black
- square blue epoxy

Series 04 Extension spindle for gate valves DN40-600

Options: • telescopic or fixed

 telescopic for double eccentric butterfly valves ....

#### Series 04

Stem caps for gate valves and service connection valves DN25-600 Ductile iron

Options: • telescopic or fixed length

Series 08 Handwheel for gate valves DN50-600 Grey cast iron

Options: • for double eccentric butterfly valves

#### Series 756/5 Adaptors for connecting gearside to extension rod or wall post indicator and to post indicator Stem cap for extension rod fitting inside handwheel DN300-600 Ductile iron

🚯 🔿 🔕 💧

## REPAIR CLAMPS, DUCTILE IRON FITTINGS AND FOUNTAIN POSTS

Series 748/01 Repair clamp Single band with support plate Stainless steel AISI 304 or AISI 316 NBR or EPDM rubber

Options: • fingers • handgrip

Series 748/02 Repair clamp Double band with fingers Stainless steel AISI 304 or AISI 316 NBR or EPDM rubber

Options: • support plate • handgrip

Series 748/03

Repair clamp Triple band with support plate Stainless steel AISI 304 or AISI 316 NBR or EPDM rubber

Options: • fingers

Series 712 Flanged bend Ductile iron

Options: • various types

**Series 712** Flanged cross Ductile iron

Options: • various types 3

Series 712 Flanged reducer Ductile iron

Options: • various lengths

Series 712 Reducer flange Ductile iron

**Series 712** Blind flange Ductile iron

Options: • various types L

Series 712 Duckfoot bend Ductile iron

Series 78/7510 Fountain post "VICTORIA" Frost-proof DN40 Grey cast iron

Options: • outlet for fire hose connection

Product range | 23

## **MODERNISATION OF POLAND'S LARGEST WASTEWATER TREATMENT PLANT**

A comprehensive modernisation of the Czajka Wastewater Treatment Plant has significantly improved both the efficiency of the plant and the water environment in Warsaw. AVK has delivered 1,200 valves for the project.

Until 2013, the Czajka Wastewater Treatment Plant, the largest in Poland and located in Warsaw, only handled wastewater from half of Warsaw and from the neighbouring city of Legionowo. The rest of the capital's wastewater was led directly into the Vistula River causing major environmental problems. Today, the Czajka Wastewater Treatment Plant not only handles all wastewater from the two cities. It is also geared to cope with a rapidly growing population in the two cities, and boasts a central, intelligent control system which ensures more efficient operation overall.

#### Can handle 435,000 m<sup>3</sup> wastewater a day

For several years, the Vistula River, which runs through the Warsaw metropolis, was under pressure from the city's 2.1 million inhabitants producing more than 200,000 m<sup>3</sup> of wastewater every day. But with the upgrade of the Czajka Wastewater Treatment Plant, which has been designed to treat 435,000 m<sup>3</sup> of wastewater a day – during peak periods up to 515,000 m<sup>3</sup> – the local water environment has been secured for many years to come.

#### 1,200 AVK valves

AVK supplied butterfly valves mainly used for aeration, ball check valves and swing check valves used in the pumping stations, gate valves for clean water, and automatic and manual knife gate valves used in the treatment of sludge.
